

May 27, 2024

To whom it may concern,

I am writing to provide a letter of support for Ms. Aishat Olatunji, who is a member in good standing with the Northeast Tennessee Medical Reserve Corps, Unit #1304. I made Ms. Olatunji's acquaintance on April 22nd when she met with me to discuss opportunities with the MRC unit. She has an impressive resume and has completed some projects integrating IT skills and public health data sets.

Ms. Olatunji formally made application and was vetted through the same background check Tennessee Department of Health employees go through on May 13th. She attended the 90-minute MRC Orientation and Point of Dispensing (POD) Training session on May 15th and also joined for the day-long *2024 MRC Conference: Where Superheroes Hangout* in Bristol, TN. She joined the conference early and assisted in setting up for the day's sessions.

I have full confidence in Ms. Olatunji's abilities and commitment to service. Should you require any further information or clarification, please do not hesitate to contact me.

Sincerely,

Jayne Harper
